

LINER WASH LUBE

The Patriot™ liner wash lubricant is designed for use in liner wash systems to help extend the life of your pistons and liners. It provides excellent cooling properties and greatly increases lubricity. This ensures removal of heat generated by the pistons and minimal friction between the piston and liner.

DIRECTIONS FOR USE

The recommended starting dilution is 0.5% or 1 qt. of liner wash lube per 50 gallons of water. Allow to circulate thoroughly. Add 16 oz. every time the Duck Pond is refilled to replace water consumed during drilling. Always ensure the fluid is spraying inside the liner and as close to the piston as possible. A flow rate of 14 GPM per cylinder is recommended to promote proper cooling and lubrication.

DISCLAIMER WARNING

This product is harmful if inhaled. Avoid breathing dust/fumes/gas/mist/vapors/spray. Use only outdoors or in a well-ventilated area. Keep out of reach of children.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a poison center or doctor/physician.

BENEFITS

- ◆ Water soluble
- ◆ Excellent cooling and lubrication
- ◆ Extended service life for pistons and liners
