

High Pressure, Extreme Service Seats

The Premium Oilfield Technologies Caliber XS valve seat was designed for today's high pressure drilling conditions. The wide valve seat surface area increases service life.

Utilizing case hardened, high strength alloy steel, the XS seat was designed and field proven for 7500 psi applications.

BENEFITS

- ◆ Full open design evenly distributes load on model seat deck
- ◆ No lower lip; standoff can be easily measured
- ◆ Open seat design allows for removal of bottom seat on Valve-Over-Valve design
- ◆ Available in API 6, 7 and 8
- ◆ Good for 7500 psi, high temperature applications
